*The Deconstruction of Baudrillard: The "Unexpected Reversibility" of Discourse by Aleksandar S. Santrac (Problems in Contemporary Philosophy: Edwin Mellen Press) Jean Baudrillard is a unique, postmodernist philosopher, who developed amid controversies, directly in the contemporary postmodernism of his time and the most important tradition of modernism and premodernism, which, as counterpoints, actually define him.*

*The deconstruction of Baudrillard is possible if one "plays according to Baudrillard's rules." Namely, Baudrillard himself advocates the deconstructive method. He claims that "every discourse is in danger of that unexpected reversibility or the likelihood of becoming sucked into one's own signs that are completely deprived of meaning.*
