The weak neutral current—discovery and impact - DESY

[The discovery of the weak neutral currents – CERN Courier](#)

Sun, 03 Oct 2004 22:54:00 GMT

Thirty years have passed since the discovery of weak neutral currents in the Gargamelle bubble chamber at CERN. Today the huge impact of this discovery on CERN, the field of high-energy physics and beyond, is highly visible; then, however, it was received with great scepticism both by CERN and the physics community.
